

HIGH SECURITY

Replace the lock,
not your whole door.
Genius.

Adjustable

Replacement PVCu Door Lock

Yale[®] Doormaster[™]

Yale Doormaster™ Adjustable Replacement lock for PVCu Doors

Yale Doormaster™ Adjustable is a High Security lock designed to replace up to 90% of PVCu door locks with top and bottom hooks or bolts, a 35mm backset, and a 16mm faceplate.

Its adjustable design utilises the latest patented technology from Yale to ensure the Adjustable lock is installer friendly, making it the ideal choice where a higher level of security on a PVCu door is required.

Easy to install

Yale Doormaster™ Adjustable has been designed to make installation as simple as possible for both the professional and DIY users.

16mm faceplate and 35mm backset

Suitable for PVCu doors.

Adjustable faceplate and gearbox positions

Adjustable faceplate and gearboxes can easily be moved to match most locks being replaced.

Uni-packer™ System

A three piece keep with our patented Uni-packer™ system is included, pre-assembled for fast, easy, and reliable installation.

Latest YS170 centre gearbox

The latest engineering from Yale.

Split follower for nightlatch function

Optional feature that will automatically lock the door behind you as you leave.

Latch Easily Reversible

Makes this lock suitable for left or right-handed doors.

Central Hook

Provides protection against attack, preventing separation.

Secured by Design PAS 24 capable

Doormaster™ Adjustable has been tested to Police Approved Secured By Design standard and is PAS 24 door set capable.

Fixing tabs

Make fitting easy and more secure.

Hook Bolts

3 Hook Bolts for High Security anti-separation.

1-piece Rollers

Easy to adjust to create a weather-tight seal. (Allen key included).

Guaranteed peace of mind

Yale Doormaster™ Adjustable is backed by the reputation of Yale, the world's favourite lock since 1843 – and comes with a full 10 year guarantee.

Will Yale Doormaster™ Adjustable fit?

Yale Doormaster™ Adjustable has been designed to fit most PVCu doors:

1. Measure the Backset

Measure the distance **A** between the centre of the cylinder and the metal faceplate of the lock (not the edge of the door).

A must be 35mm for Yale Doormaster™ Adjustable to fit your door.

2. Measure the Centres

Measure the distance between the centre of the cylinder and the centre of the door handle.

B must be 92mm for Yale Doormaster™ Adjustable to fit your door.

Please note: If the handles inside and outside the door are at different heights, measure the centres on both. If either are 92mm you will be able to fit this lock, but will require new handles – see Yale Replacement PVCu Door Handles.

3. Measure the Reach

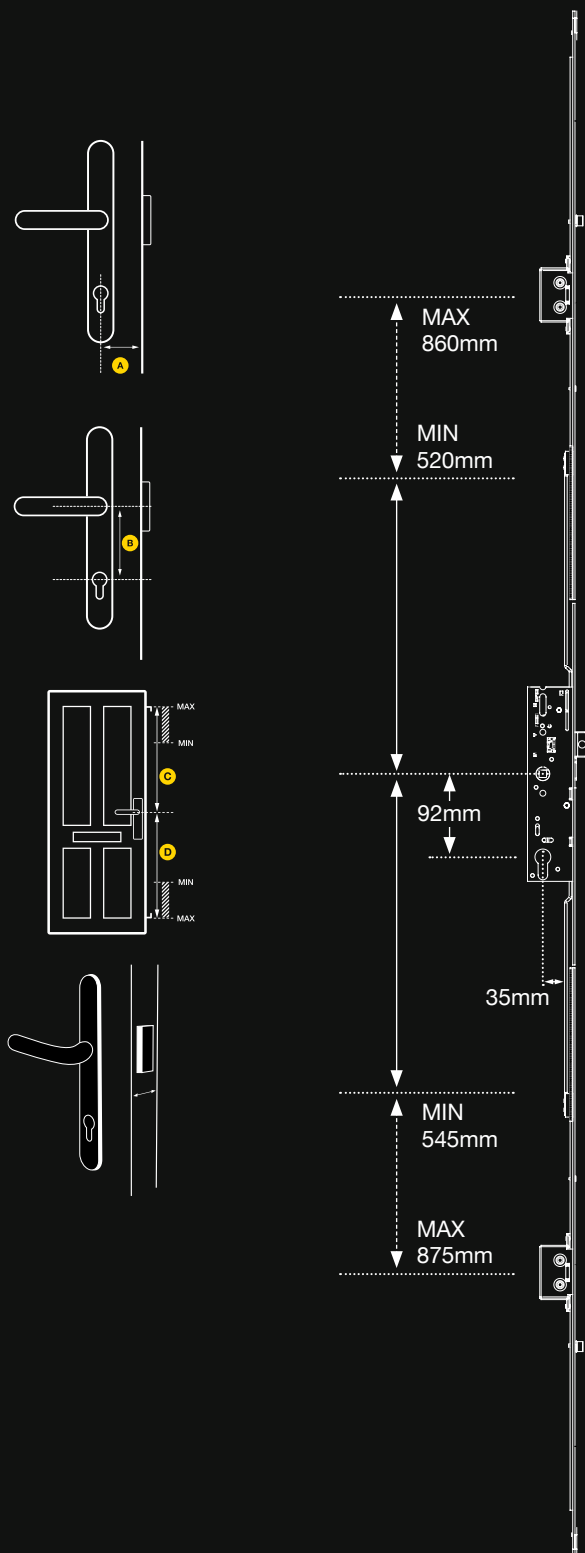

Measure the distance between the handle spindle and the top and bottom hook/bolts. To fit your door this must be:

C MIN 520mm and MAX 860mm and

D MIN 545mm and MAX 875mm

4. Measure the Faceplate

Measure the metal faceplate on your existing lock – this must be 16mm for Yale Doormaster™ Adjustable to fit your door.
