

**SETTING A NEW COMBINATION**

This resettable combination padlock is set to open at 0-0-0 (even though dials may be positioned at other numbers).

Step1 Turn the dials to 0-0-0 and align them with the opening index.

Step2 Using a thin object press and hold "Reset" while turning the dials to the new combination.

Step3 Release Reset. The lock is ready for use your new combination.

Step4 Press the Lock Button to open the lock

Keep your combination in a safe and accessible place for future reference.

**NOTE:**

The Transportation Security Administration (TSA) screeners and airline check-in staff at airports are trained to recognize the Travel Sentry® logo.

They understand that baggage with locks displaying this mark are permitted to remain locked.

TSA screeners have access to special codes that allow them to open those locks in the event that the baggage must be opened for inspection.

With Travel Sentry® Approved locks the TSA can screen checked baggage faster, without having to break open locks.
