User Management

TAP DONE to get back to the previous screen

Get Key

When someone created a key and shared it with you, you will be notified by a MESSAGE from him. It can be via e-mail, SMS, whatsapp etc.

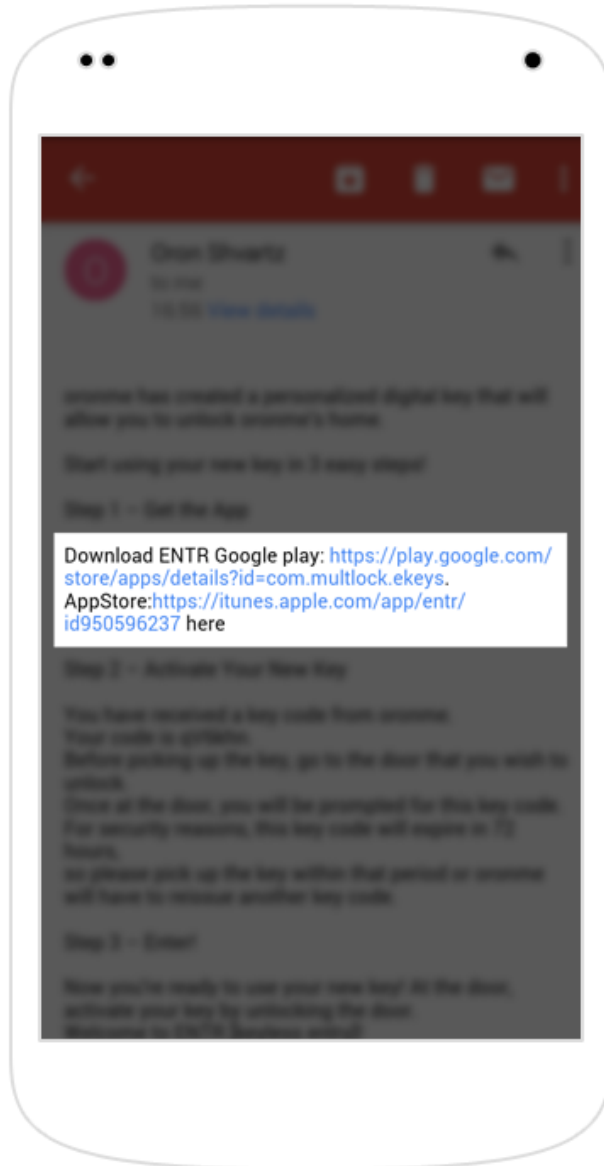

Get Key

In the message you will find instructions on how to start using your key. BUT, more importantly you will need to notice 2 important parts of the message:

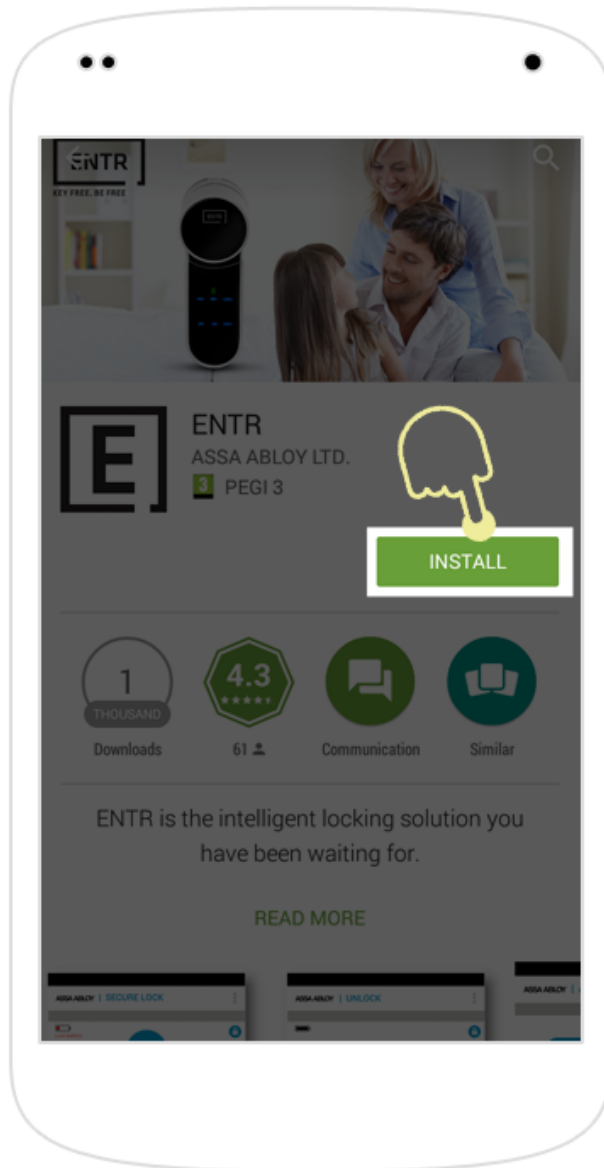

1. Your onetime key ACTIVATION CODE - We recommend to write or copy it. Please note that the passcode is case sensitive.
2. The number of hours you have to activate your key, after that time expires, a new key will have to generate for you.

Get Key

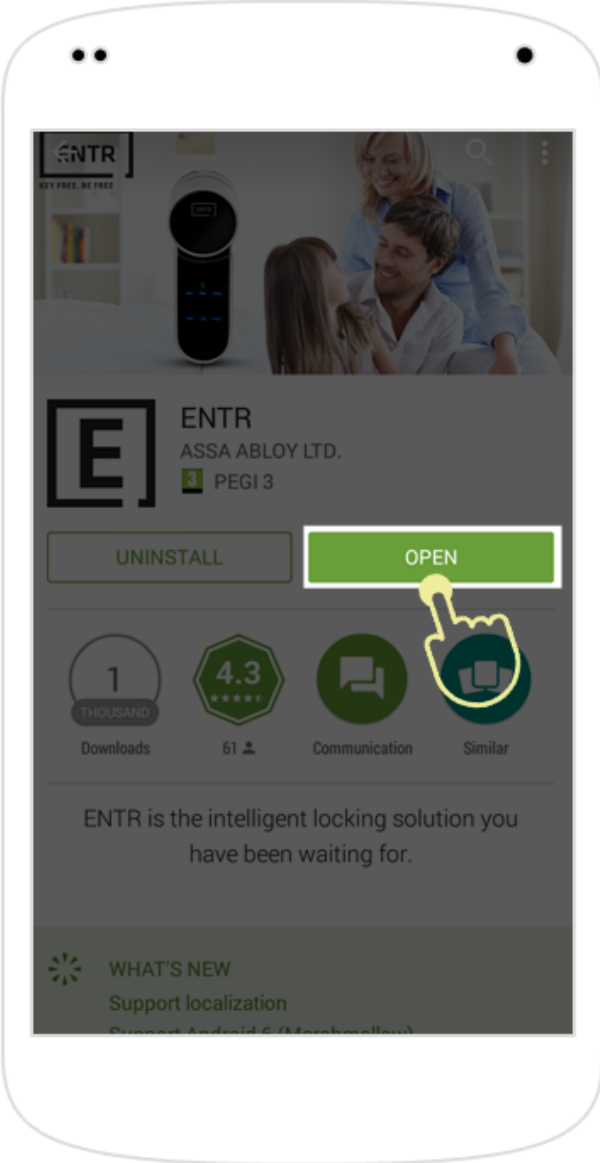

Next, you will need to download and install the “ENTR” app. You can follow the link in the message you received or simply go to your applications store: For iPhone users it is the AppStore, and for android users it is Google play.

Get Key

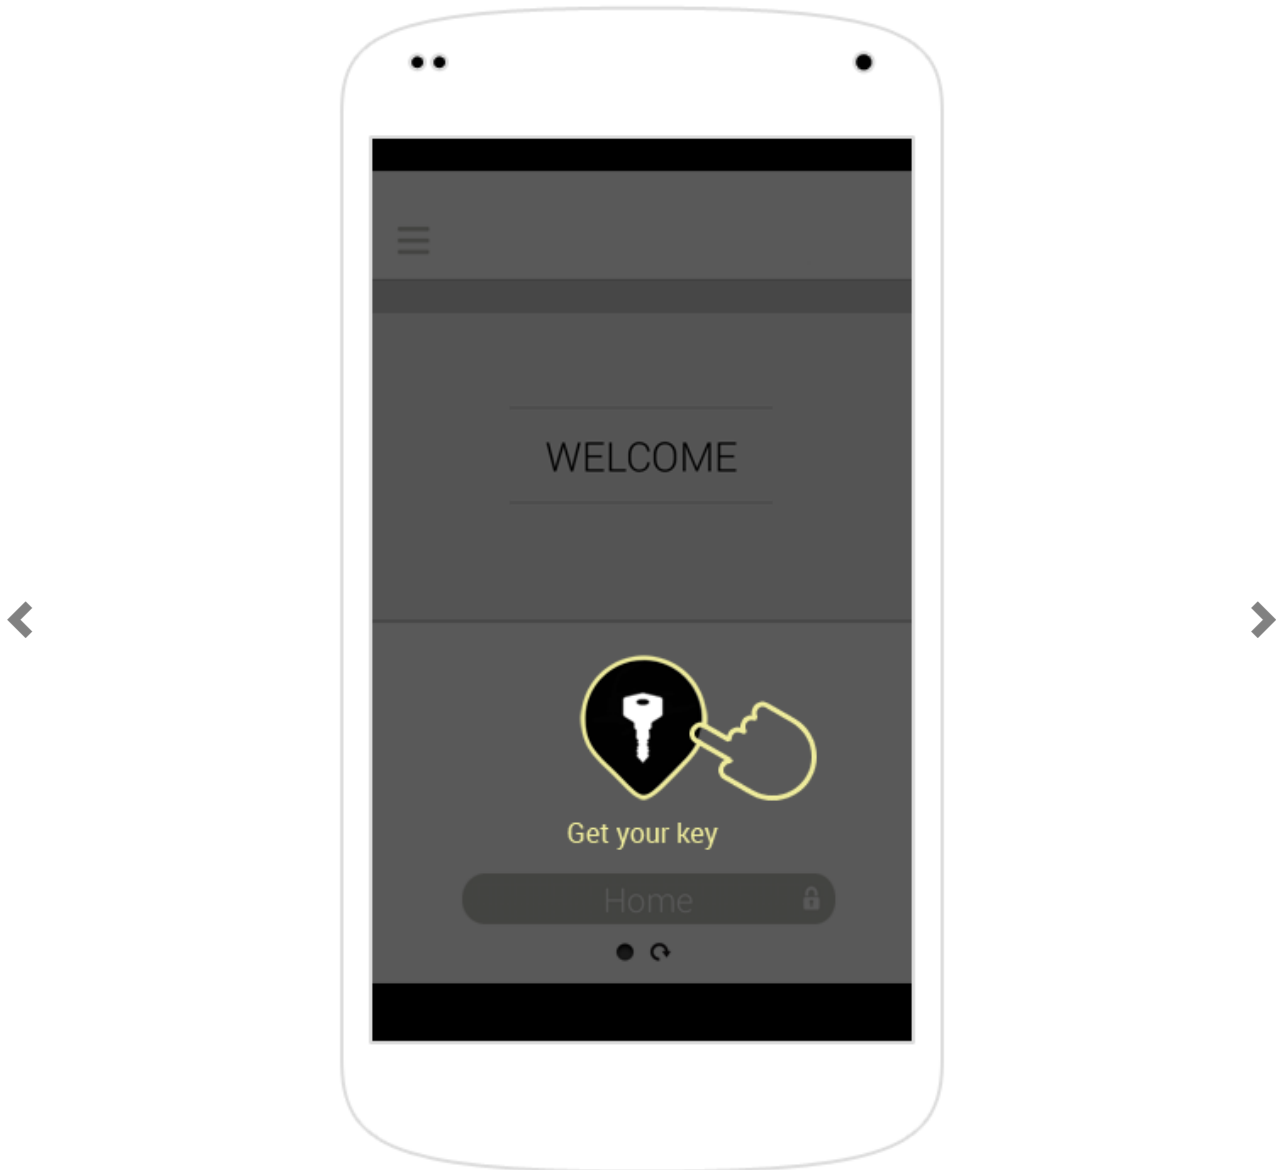

On the apps' page TAP install. The "ENTR" app will be downloaded and installed on your device. (it may take a few moments)

Get Key

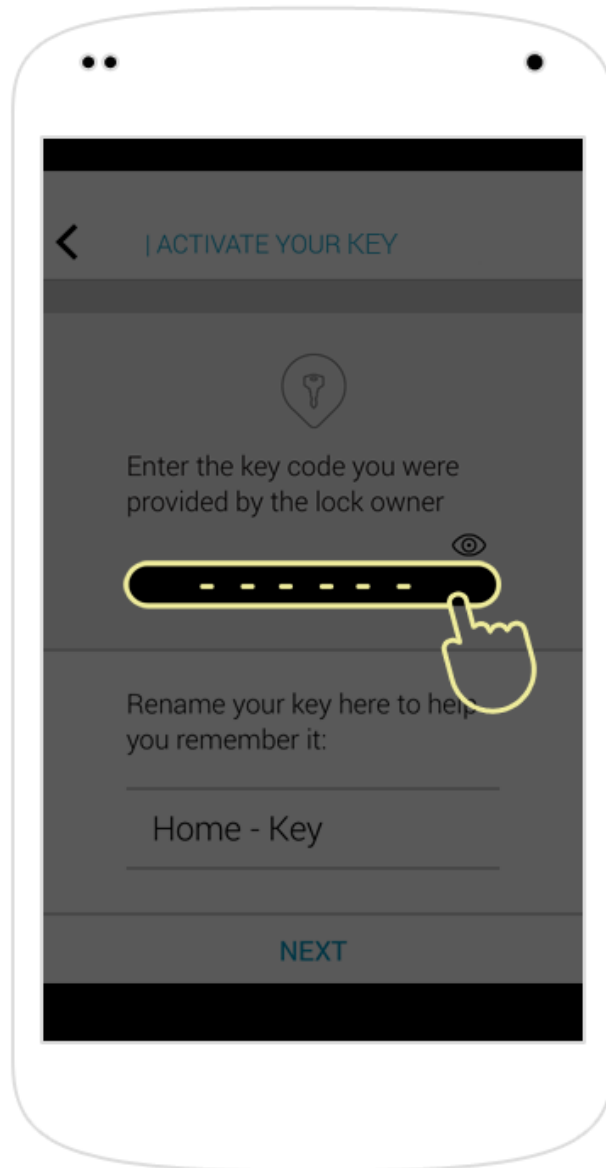

After the app is installed open it.

Get Key

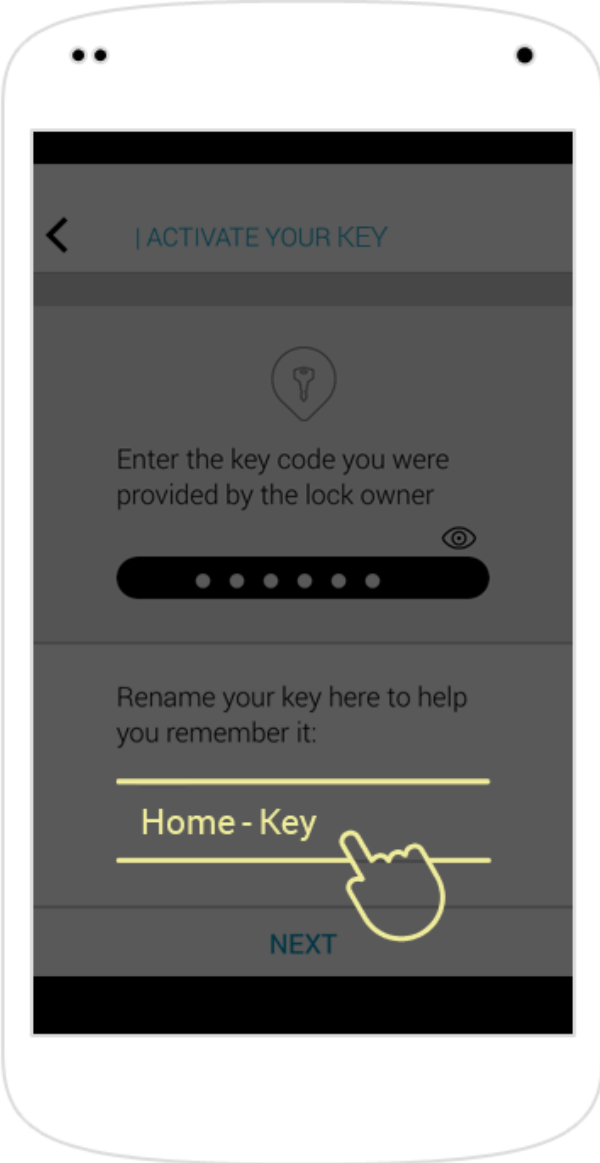

TAP the button to get your key. Note: Make sure your Bluetooth is on and that no other device is connected to the lock.

Get Key

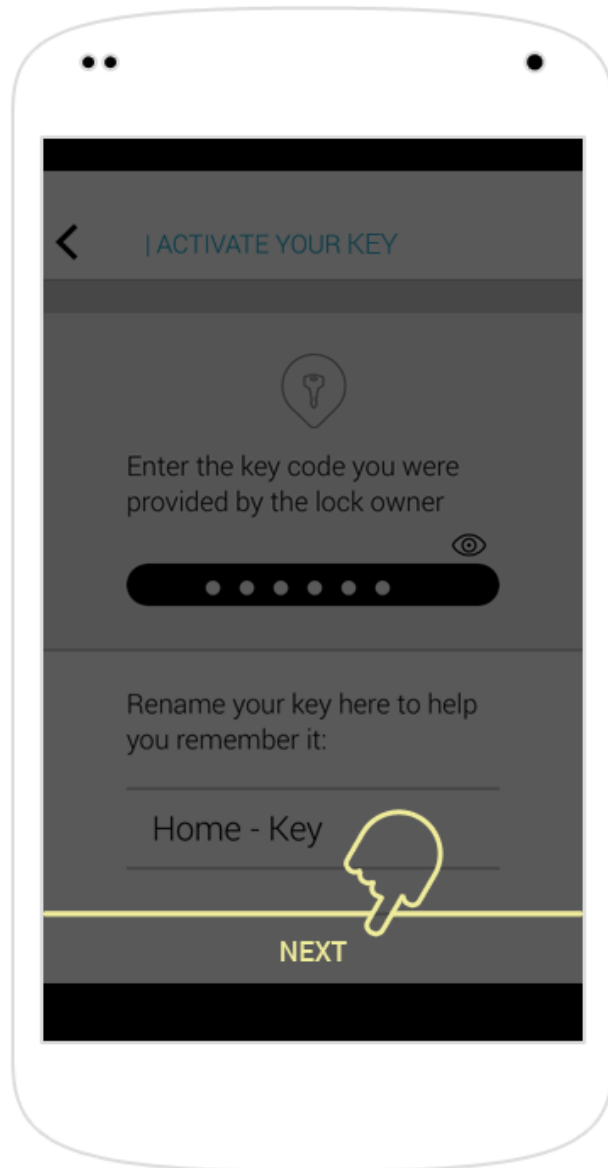

Now you will be asked to enter the passcode that was sent to you.

Get Key

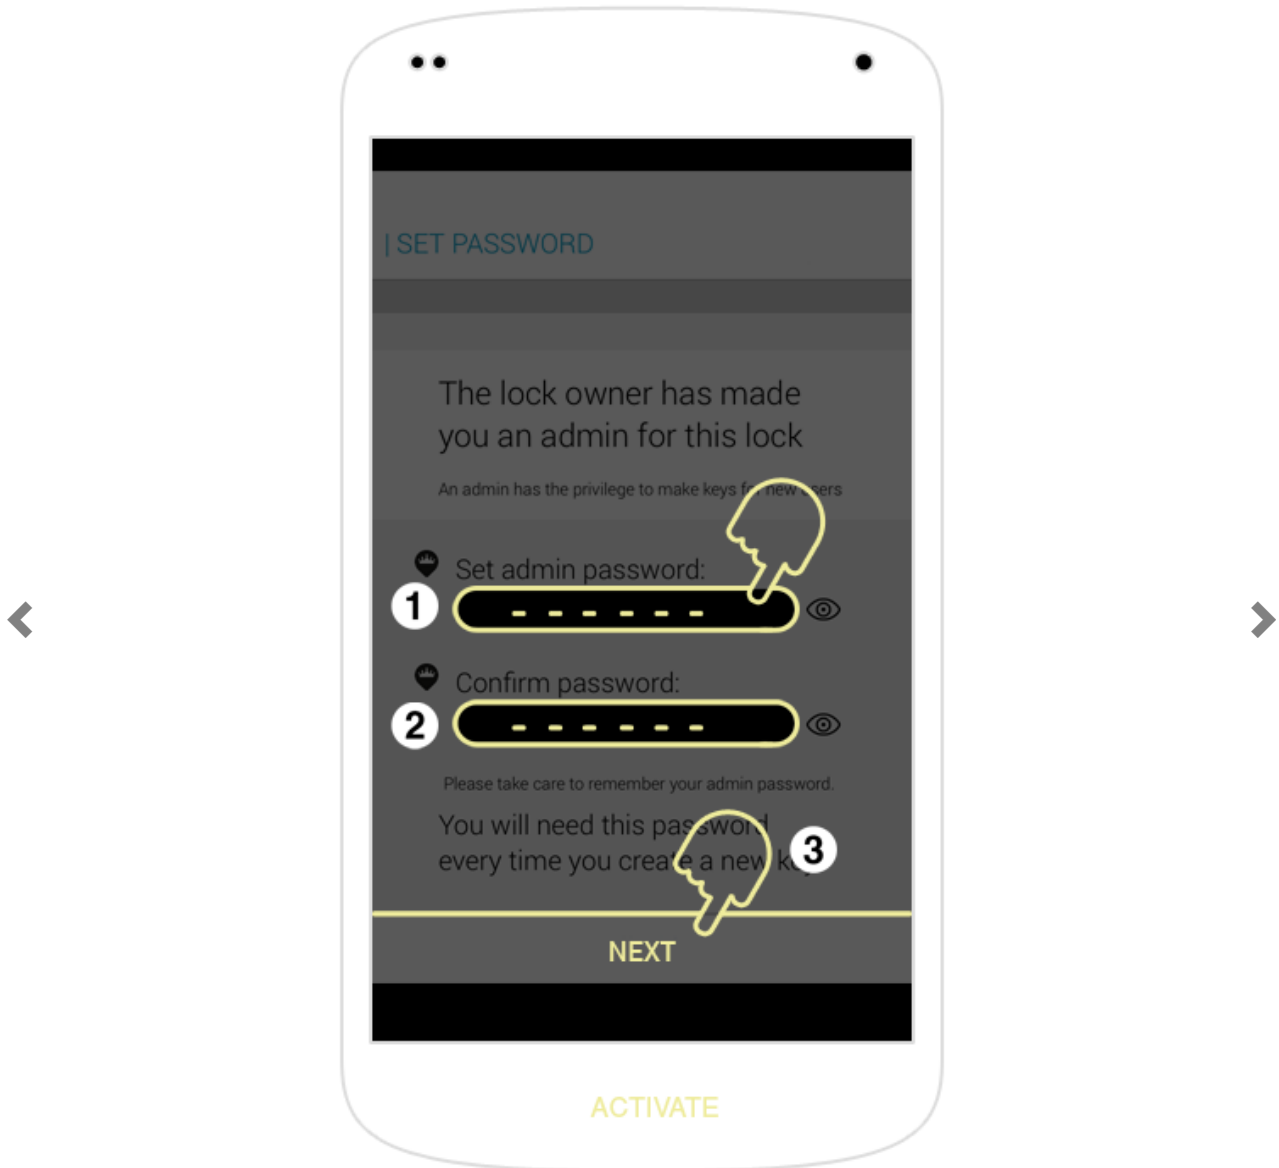

TAP here if you to rename the lock.

Get Key

When you are done, TAP ACTIVATE

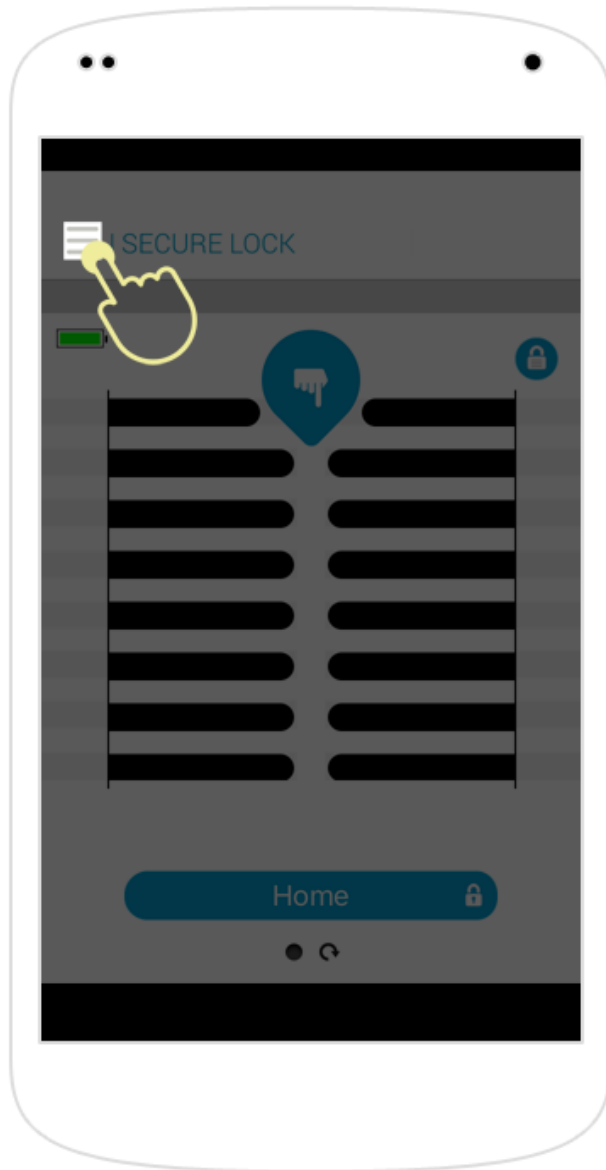

Get Key

If the person who gave you the key decided to make you an ADMIN type user for this lock (meaning you can add and manage users yourself), Before activating your key will need to create an admin password for yourself.

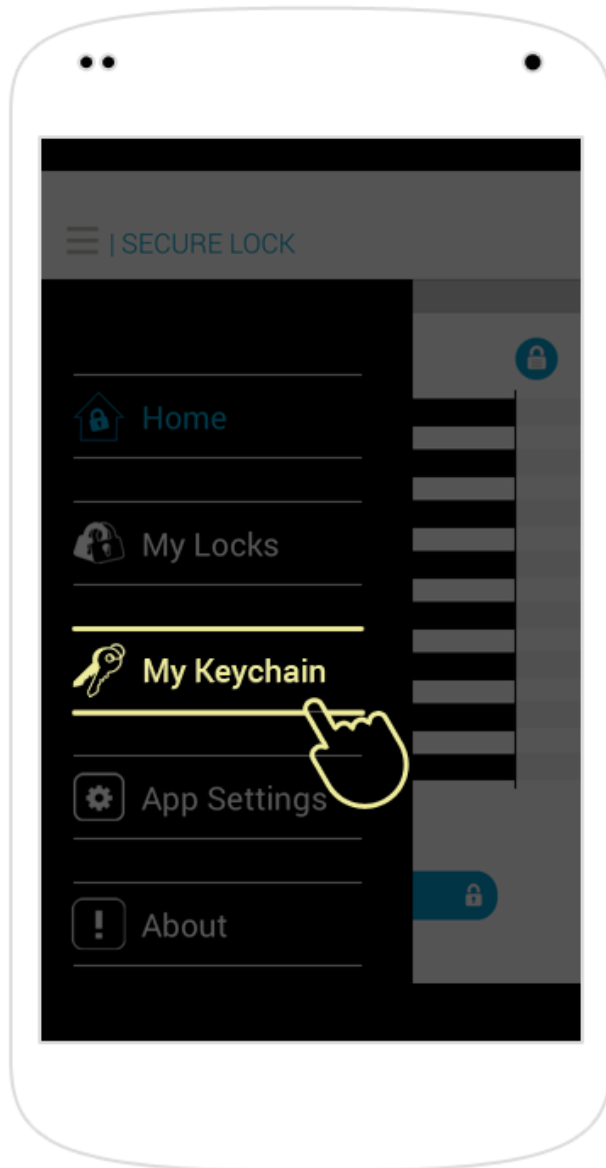

1. First set a password
2. Confirm the password.
3. TAP ACTIVATE

Delete Key

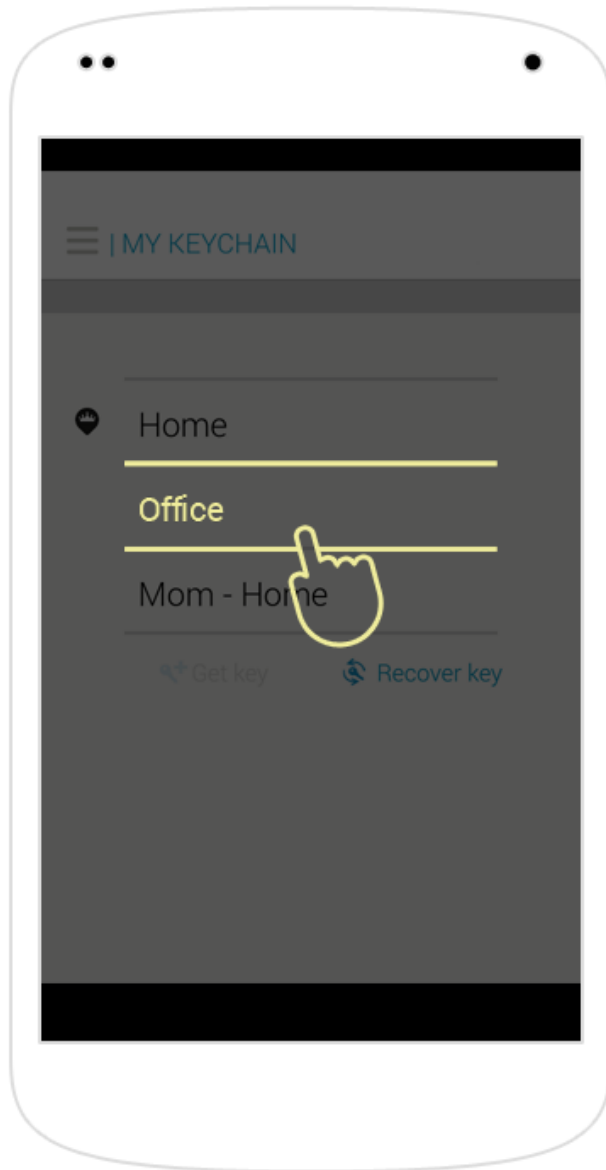

TAP to open the general menu.

Delete Key

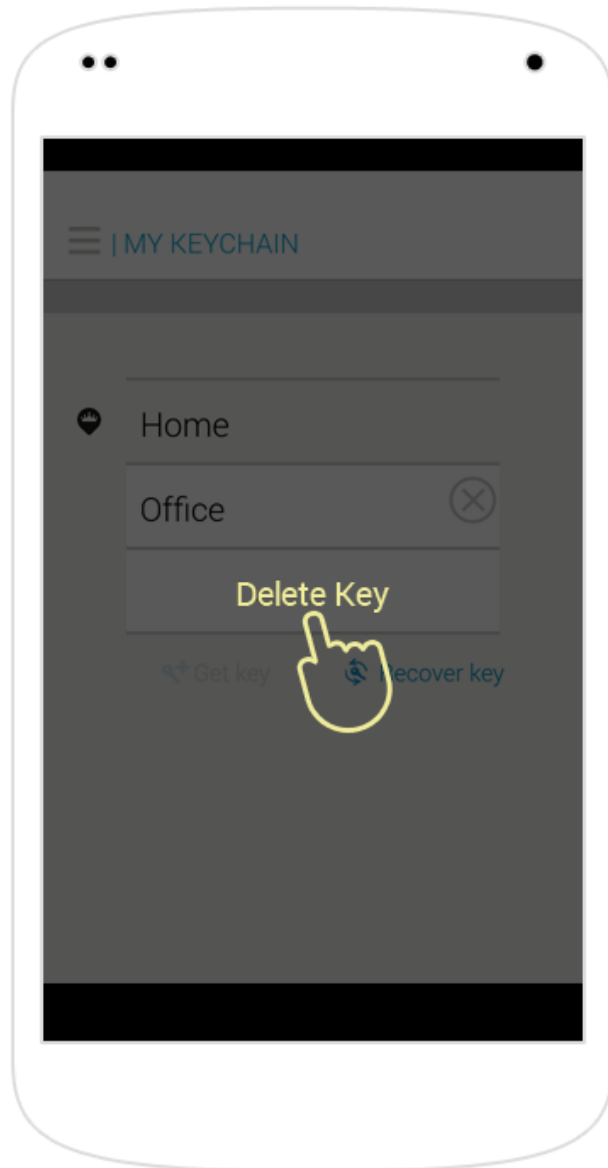

Select My Keychain.

Delete Key

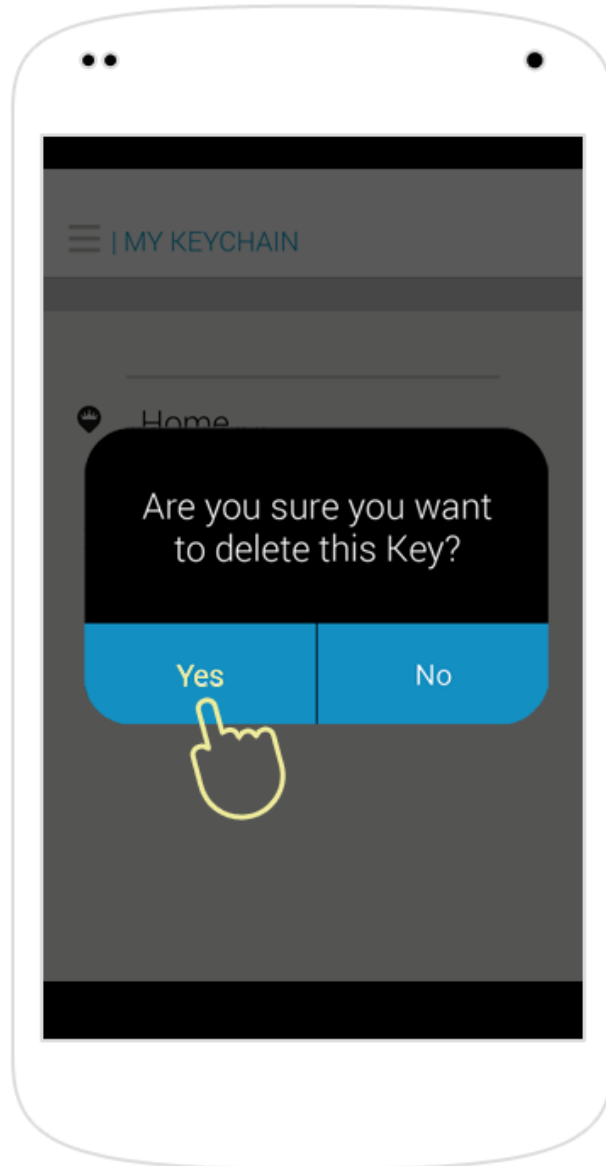

Select a key from the list.

Delete Key
