Auto Lock setting locks a door within 5 seconds after the door was closed.

To Set Auto/Manual Feature

Auto Lock Setting

Press the interior Auto/Manual Setting button to keep the button up.

Manual Lock Setting

Press the interior Auto/Manual Setting button to keep the button down.

Volume Setting Feature

It enables you adjust the volume of various sounds from the product.

Volume Setting

To set volume switch

The operation sound volumes are adjusted according to the Volume Switch Setting.
(2 : Louder / 1: Lower / 0 : Mute)

Alarm Feature

The alarm sound continues for 30 minutes or until it is reset.

Break-in / Damage Alarm

Break-in:

When someone tries to Break-in by opening a door when it was locked, the alarm will go off.

Damage:

When the front body was damaged due to forced separation or drilling, the alarm will go off.

Release Trespass/Damage Alarm

Method 1: Enter the registered Master PIN Code or User PIN Code

Method 2: Enter the registered fingerprint.

Method 3:Press the interior (1) button for 5 seconds.

₩ Note

- Be careful that the set bolt won't detach when modifying the Safe Handle Setting.
- Even when the operation sound is set as 'Mute', the error and alarm sounds will go off.

- Even after a door was locked by the Auto Lock function, please check again if the door was completely locked.
- If a door is open when the Auto Lock is not properly operated, the Break-in alarm might go off.
- If the alarm goes off due to damage, fire, or break in, the numbers on the keypad will light up clockwise. (It repeats the status for 30 minutes with alarm sound.)

Yale Settings

Voice / Melody Feature

You may select the operation sound that is set off when a door is open and closed.

> To Set Voice/Melody Feature

Language Setting

English and Chinese languages are supported.

To Set Language

Forced Lock

Outside Forced Lock Setting - Fingerprint

Outside Forced Lock Setting - PIN Code

Description

- ⓐ Enter the registered fingerprint on the fingerprint sensor when the operation lamp(LED) is on.
- (b) Press the [#] button for 5 seconds. (A beeping sound sets off for 3 times.)
- © Touch the keypad of the front body gently with your palm.

- If you try to open a door with the handle or the Manual Open/Close Device from inside when the Outside Forced Lock is set, the alarm goes off.

Yale Safety Feature

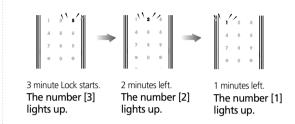

3-minute Lock Feature

At 3-minute Lock mode, no button, besides those in the back body, will work.

3-minute Lock Mode Display

If a PIN Code or a fingerprint that is yet to be registered is entered for 5 consecutive times, 3-minute Lock mode is on and nothing will work for 3 minutes.

(Wrong trial of PIN Code 5 times and Fingerprint 10 times)

» Release Trespass/Damage Alarm

Method 1: Press the interior ① button for 5 seconds.

Method 2: Turn the interior handle.

Open Door with fake PIN code

Only Normal Mode.

It is the most effective feature when you are concerned about your PIN Code being accidentally exposed when you have company or in the similar situations.

\rangle To Open Door with false PIN code

Description

- ② Enter the fake PIN code
- b Touch the keypad with your palm gently or press [$*$] button to end.

₩ Note

- 3-minute Lock mode won't affect the alarm mode and is sustained even after the product is rebooted.
- Once 3-minute Lock mode is on, the fake PIN code mode won^oØt work until the next normal verification (fingerprint verification, normal PIN Code, open door from inside). In this case, please open a door with your correct PIN Code.

Emergency mechanical key override

> Emergency mechanical key override

- Please operate the lock with the mechanical key when there is a problem to the lock or
- Forgotten security code
- Electronic malfunction

Location of key hole

Press the outer handle down

- Keep the mechanical override key in a safe place.
- Otherwise, you may not get a free after-sales service even within during the warranty period.

Yale Option

Remote Control Module

» Remote control Module

Buy the Remote control Module and install it to link the remote control.

) Install Remote Control Module

1 Remove batteries

Open the battery cover in the back body and remove all batteries.

Install Remote Control Module
Equip the Remote control
Module to the connector.

Insert batteries
Insert all the batteries by checking the [⊕,⊖]
connector.

Confirm the installation If you hear a 'ting-a-ling' sound, the Remote control Module has been installed correctly. Close the battery cover.

₩ Note

- The operation status may only be examined through the remote control.

Remote Control

Not only FSK method but also the wireless encryption algorithm has been applied.

> To Register Remote Control

> To Release Remote Control

Description

 $\ensuremath{\textcircled{@}}$ Press the SET button of the remote control (Up to 5 Remote controls)

- The wireless encryption algorithm resorts to the floating ID technology where the wireless PIN Code is changed every time the remote control is operated.

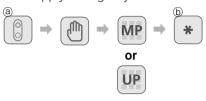

Yale Emergency Power

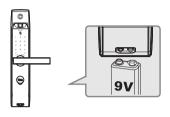

Yale Memo

Emergency Power Supply for Discharged Batteries

You may open a door when contacting the 9V battery.

> To Supply Emergency Power

> To Replace Battery

1 Expiry Period

The product uses four 1.5V alkaline AA batteries.

They may sustain 1 year if used 10 times a day.

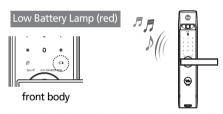

(Users are advised to use authentic alkaline batteries.)

2 Low Battery Alarm

You must replace all 4 batteries for the following cases:

- The Low Battery Lamp on the front body lights on
- The alarm melody goes off (a nursery rhyme starting with ting-a-ling melodies)
- The voice guide goes off ("Please replace batteries.")

Description

- $\textcircled{\scriptsize 0} \textbf{ Open the emergency cover. Keep contacting the 9V battery onto the emergency power supply terminal.}$
- b Press [\star] button. (Once the motor is fully operated, you may detach the 9V battery.)

- The battery duration varies in the temperature, humidity, the number of use, and the quality of the battery.
