HIGH SECURITY

Choosing the Right Product

What level of protection do you require?

- **Standard** For doors that require a standard level of security
- **High** For doors that require a high level of security and attack protection
- **Maximum** For doors that require a maximum level of security against physical and manipulation attacks

This cylinder offers resistance to many types of attack. It is designed to be used in conjunction with 2 star security door hardware to ensure enhanced resistance to all commonly used attack methods. Therefore this product **MUST** be used in conjunction with 2 star security door hardware meeting TS 007 to ensure total security. For more information visit the Yale website.

This product has been independently tested and meets the following British Standard BS EN1303:2005 classification and is TS 007: 2012 1 Star Kitemark approved (KM532920).

*When used with Yale security door handle.

Fitting Instructions

To ensure that you purchase the correct size cylinder for your lock, remove your old cylinder and measure each side of the cylinder as shown on the diagram.

Step 1: Open door so lock is visible.

Step 2: Remove the screw that is now visible beneath the bolt.

Step 3: Insert the key in the cylinder and turn to enable the cylinder to be removed.

Step 4: Insert new cylinder and fix in position with the screw provided.

Fitting instructions and 'how to' videos are available to download on www.yale.co.uk.

10 Year Guarantee

This British Standard product is guaranteed against faulty workmanship, materials and function for a period of 10 years from the date of purchase providing the full installation and maintenance instructions are followed. A full copy of this guarantee is available upon request or by visiting our website www.yale.co.uk.
