- 10 year mechanical guarantee
- Suitable for use on uPVC, Aluminium & Timber

An ASSA ABLOY Group brand

ASSA ABLOY

From Yale, the world's most trusted lock manufacturer, is the innovative **Shootbolt Window Lock**. Both versatile and secure, this window lock is suitable for uPVC, aluminium and timber profiles and comes as either a croppable or extendable variant.

The **Shootbolt Croppable** covers all window sizes from 326mm to 1420mm with just four rods sizes and offers high security shootbolt performance with a minimal number of components.

The **Shootbolt Extendable** covers window sizes from 476mm to 1520mm without the need to cut the shoot bolt extensions. This non-cropping window lock combines high security shootbolt performance with the efficient manufacturing Yale is known for.

On both versions of the shootbolt, the adjustable mushroom cams provide increased anti-separation performance, together with simple compression adjustment and there is also a night vent option available on the flush casement. Plus, enjoy added peace of mind with Yale's fantastic Lifetime Security Guarantee.

Designed to meet the standards of PAS 24, the Shootbolt Window Lock is available with sash sizes up to 1520mm and is Secured by Design accredited, just a few more reasons why this lock is a fantastic choice.

Material Specification

Gearbox:	Zinc alloy casting
Faceplate:	Mild steel and clear Triklad finish
Keeps:	Zinc alloy casting

Maintenance

As with most mechanical devices, locks require periodic maintenance.

Every five years - Carry out the following checks:

- Check the tightness and security of all fixing screws.
- Check the gasket compression.

Gasket compression can be adjusted via the cam and use of a 4mm hexagon key. It is recommended that the cam be adjusted as required to maintain the profile manufacturers recommended gasket compression.

Cams

- Adjustable 7.7mm and 9mm mushroom cams
