

## Your eyes on your home.

Yale self-monitored indoor cameras are on hand to let you know exactly what's happening at home, even when you're away, so you never have to miss a moment. Check in to see who's arrived home first, listen and talk back to pets and loved ones, through the Yale View app.

### Live viewing

Set up and control your Indoor WiFi camera via the Yale View app. Your eyes on your home in 1080 HD from anywhere.

### Never miss a moment

Motion detection and live notifications through the Yale View App.

### Total peace of mind

Home or away, use the two-way audio to listen and talk back to pets and loved ones.

### Day and night

8 metre night vision lets you live view and record even in the dark.

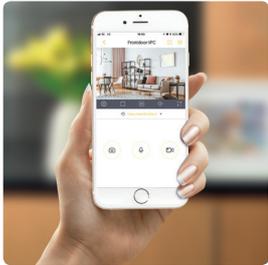

### Smart together

Control with voice assistant and view your cameras with your favourite screen enabled smart speaker.

## App controlled

The Yale View App gives you control of your Indoor WiFi camera and enables you to view live stream of your home from anywhere via your smartphone or tablet (WiFi or 3G/4G connection required).
