Digital Door Lock

Reliable   Convenient   Safe

Various Access (PIN, RF cards)
Yale YDM3112 has two access solutions,
PIN code or RF card key for your convenience.

Fake PIN code
To prevent the PIN Code from being exposed, It allows you to
enter Fake numbers before or after entering your PIN Code.

Alarm (Break / Damage / Heat)
80db alarm goes off if anyone attempts to damage the lock or
force the door open, or if it senses 55℃.

Missing key invalidation
Once you lose your key, it has no validation as long as
you re-register rest of your keys.

The Yale Networking System (optional extra)
You may ues a remote control by installing the Wireless the
communication module. It enables you to link it with the
Network package - a wireless security system.

Low battery and emergency power supply
It warns in case of low battery with alarm and LED.
Also it has 9V external power supply solution.

Volume Control
You can change the volume. The break-in alarm still operates
even if the silent mode is on.

Forced Look Mode
Internal forced lock prevents anyone to unlock from the outside
and external forced lock makes only manual thumbturn available to
open the lock from the inside.
