

ENTR[®]
Smart Door Lock
Secure. Simple. Keyless.

An ASSA ABLOY Group brand

ENTR[®]

ASSA ABLOY

The smarter way to protect your home.

Smart Living. The intelligent security system that gives you complete peace of mind.

Yale Smart Living is designed for the way you live your life – it gives you the security, convenience and flexibility you need, and using it couldn't be simpler. It is a range of connected, smart security devices such as alarms, smart door locks and digital door viewers that allow you to protect your home and loved ones from almost anywhere in the world through intuitive user-friendly apps.

From visitor access, controlling sockets, IP cameras, fire detection and security to alerts in an emergency wherever you are...

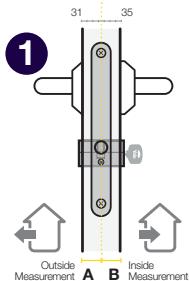

Smart Living puts you in total control.

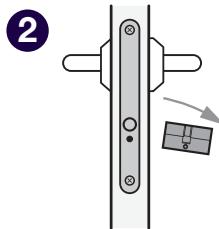

4 easy steps to your ENTR[®] Smart Door Lock.

Developed using Yale's high security standards and latest advancements in technology, ENTR[®] gives you secure and convenient keyless control over the access to your home. You have a variety of methods to unlock your door. Use the mobile application, fingerprint reader, PIN code reader or remote control. Select the best option to suit your needs or use any combination of them.

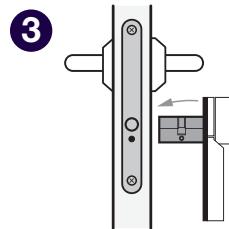

Easily upgrade your existing door lock with ENTR[®]. Simply follow the next 4 steps.

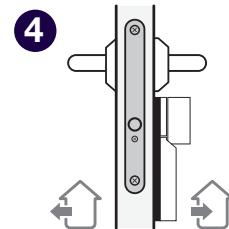

Before purchase, measure the depth of your door (A&B). Ensure cylinder does not protrude past the external escutcheon more than 3 mm.

Remove the current cylinder.

Insert the cylinder (including baseplate & knob) from the interior side of the door.

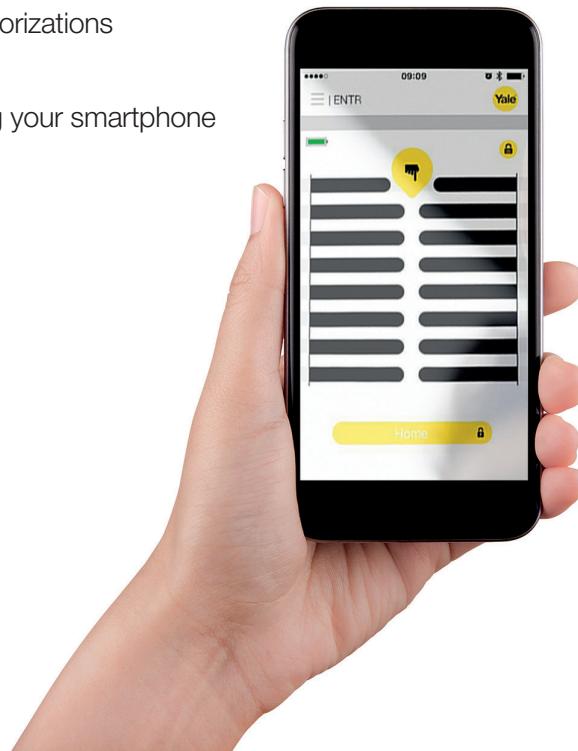

Secure the cylinder in place using the M5 screw and turn the knob back to the zero position.

Access control

24/7 from your smartphone

With the ENTR® mobile application you can lock and unlock your door directly from your smartphone or other Bluetooth-enabled device, giving you 24/7 control and management of your lock.

- Uses encrypted Bluetooth Smart technology, non-dependent on network reception
- Receive notifications – locked/unlocked door and battery power level
- Create virtual keys
- Program scheduled access authorizations with fingerprint reader
- Technical support interface using your smartphone

Security, Convenience and Smart Control

Don't look for your keys anymore,
go for a keyless solution:
ENTR® Smart Door Lock.

ENTR® Highlights

- Ideal for most door types and sizes
- Easy to install on your existing door – no drilling or wiring
- Battery operated – not dependent on power or cables
- Secure and encrypted wireless communication between system elements
- Automatic locking – shut the door and it will automatically lock

High Security Access Options

ENTR® provides you with a variety of devices that give you access control. Select those that best suit your needs and provide you with the most convenience.

ENTR® Touchpad Wall Reader

Predefine up to 20 different codes. Once a code is programmed into the touchpad, you will be able to use it to securely unlock the door. Easy to install and program.

ENTR® Fingerprint Wall Reader

The fingerprint wall reader gives control and functionality, allowing you to register up to 20 users. You will be able to use both authorised fingerprints and PIN codes. Authorisation for users can be managed and scheduled.

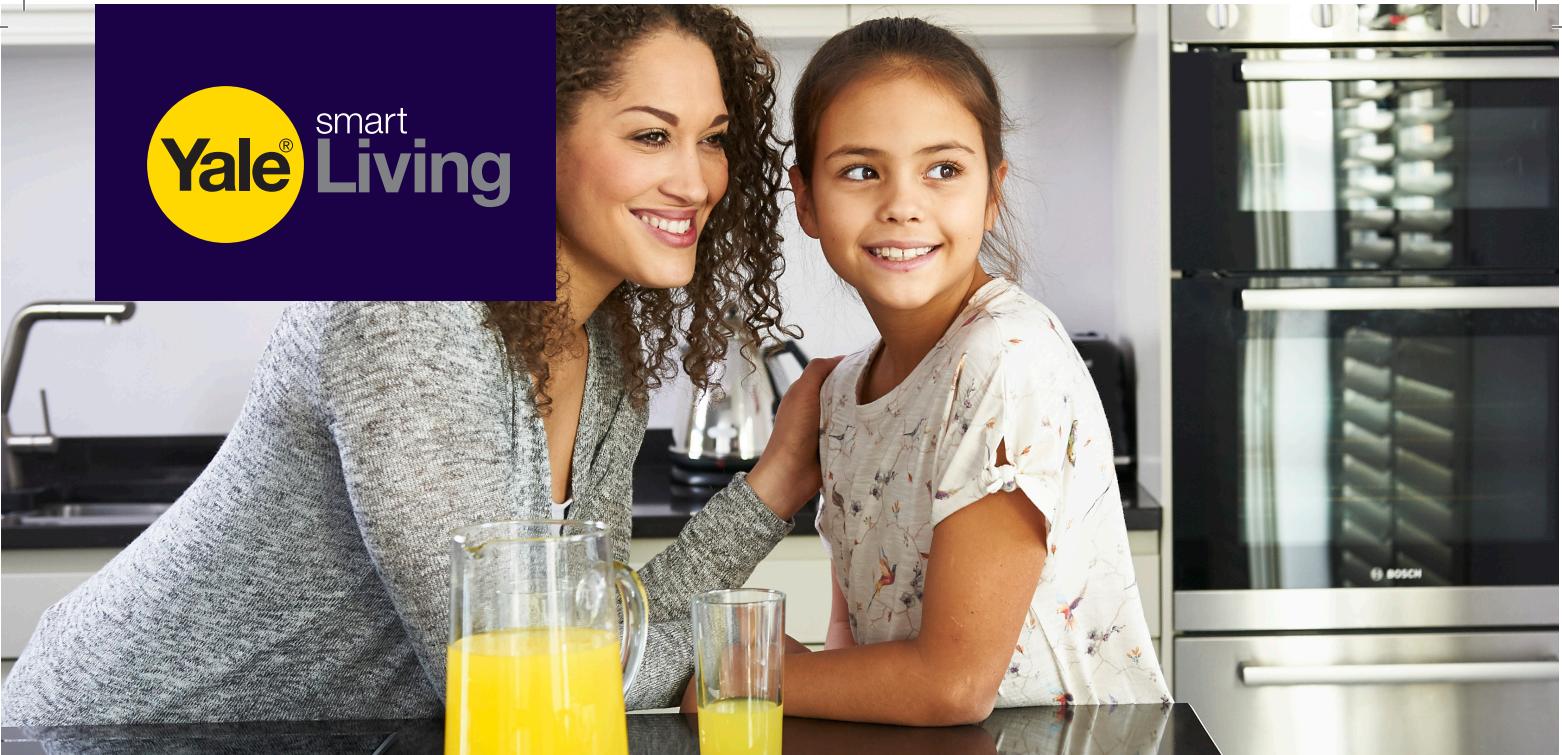

ENTR® Remote Control

Pair the remote control to the unit and unlock the door from a distance, both from inside and outside the home. The system can pair up to 20 remote controls and are easy to add or revoke.

ENTR® Power Supply

ENTR® has rechargeable batteries that are powerful and eco-friendly. There are two charging options to keep your ENTR® fully operational: Wired Charger and Wire-free Charger.

Yale - the World's favourite lock

All over the world, people are actively securing all they care about; their home, their family, their personal belongings or their business with the name they trust the most, Yale. That's why we proudly say that Yale is "the world's favourite lock".

Taking security into the future

Yale builds on its unique heritage to continue taking care of people and their favourite things. Our vision for Yale is to recapture our entire past heritage and re-energize it for the future, designing the products to reflect the key values of the Yale brand: creating optimism, caring, progression, reliability and accessibility, and the Smart Living concept is a key part of that vision.
