

The world's favorite lock since **1843**

Yale Lockmaster® KeyTurn

Thank you for choosing Yale Lockmaster® KeyTurn to protect your home. To ensure your new multi-point door lock functions correctly, please follow the operating instructions below.

Cylinder Pull - 92mm centres

To lock (from inside or outside)

1. Close the door and engage the latch
2. Turn the key two times to throw the deadbolt and hooks
3. The door is now fully secure

To unlock (from inside or outside)

1. Turn the key two full rotations and an additional $\frac{1}{4}$ turn to retract the latch
2. Push the door to open

Lever/Lever Handles - 92mm centres

To lock (from inside or outside)

1. Close the door and engage the latch
2. Turn the key two times to throw the deadbolt and hooks
3. The door is now fully secure

To unlock (from inside or outside)

1. Turn the key two full rotations
2. Push the door handle down to retract the latch
