

# Home View Camera WIPC-303W.

An Internet protocol camera, or IP camera, is a type of digital video camera that allow busy homeowners to check in on their property at the touch of a button.

Yale's Home View cameras include Pan Tilt & Zoom functionality (PTZ), and link wirelessly to an Internet connection, providing peace of mind for busy homeowners by allowing them to check in...even when they're out!

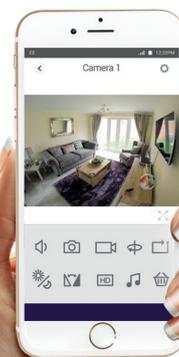

The Yale Home View Pan Tilt Zoom Camera offers peace of mind by allowing you to view inside your home from your Smartphone or Tablet in HD720 quality. Rotate the camera, change the viewing angle and zoom in and out remotely from your Smartphone or Tablet.
