

Quartus Combi Door Handle Range

Aesthetically pleasing with hygienic protection.

- Antimicrobial option available
- Available in a wide range of colour options
- 25 year anti-corrosion guarantee
- Can be suited with other Yale furniture

Since 1840 we have protected homes and enabled peace of mind. Our brand stands on trust, knowledge, and heritage; making durable quality products.

The Yale Quartus Combi Door handle is available in standard or antimicrobial options and offers homeowners the ultimate solution with its aesthetically pleasing design and user-friendly functionality, making it the ideal choice for composite and PVCu doors.

Available in inline or offset variants as well as a wide range of finishes, this handle has been designed, developed and tested in the UK to Yale's precise standards, and high-performance security.

Features

- External handle manufactured in 304 Stainless Steel giving ultimate corrosion resistance
- Superior quality and design for product longevity
- Incorporates a patented spring cassette which eliminates the 'drooping handle' effect
- Aesthetically pleasing as part of the suited range of door and window furniture
- Suitable for use on composite and PVCu doorsets
- Range includes inline and offset variants in addition to short and long backplate options
- Range includes lever/lever and lever/pad variants
- Available in variety of finishes:
 - Standard range: polished gold (PVD), brushed gold (PVD), polished stainless, brushed stainless and white powder coated over stainless
 - Antimicrobial range: white, satin black, champagne gold, and chrome

Specification

- 10 year mechanical guarantee
- 25 year surface finish guarantee
- Tested to BS EN 1670 Grade 5 in excess of 1000hrs NSST
- Endurance tested to 50,000 cycles
- Lifetime Security Guarantee when used in conjunction with other Yale security hardware*
- Abusive load tested to BS6462

Carefully protected to protect you.

Door handles are the first and last thing people touch as they enter and leave their home. The new Quartus anti-microbial door handle range has proven effective against many common microbes including bacteria, mould and fungi; this technology will protect the Quartus door handle from colonization, and significantly reduce the risk of cross-contamination of germs.

Always on. Always working.

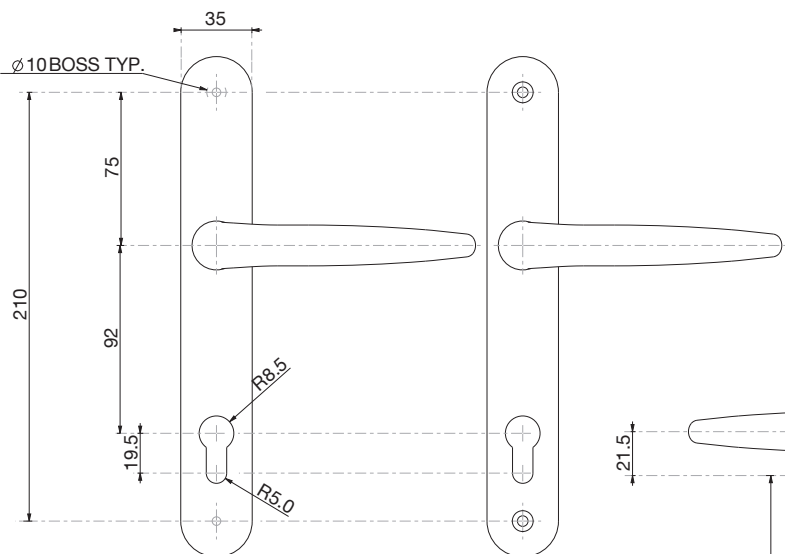

The industry-leading Quartus door handle is manufactured in stainless steel exterior as standard, giving ultimate corrosion resistance and comes with an impressive 25 year guarantee* on all finishes. Furthermore, the new anti-microbial coating provides continuous around the clock protection designed to last the lifetime of the product.

Silver Ion protected.

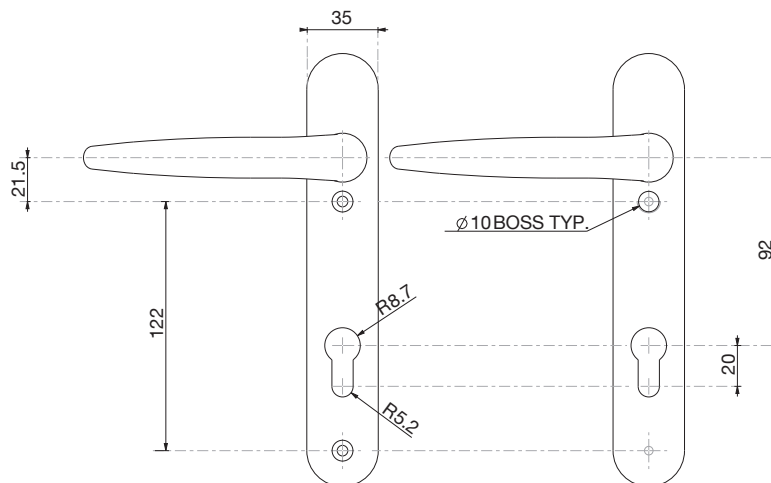

Proven effective against common microbes including bacteria, mould and fungi, the Silver Ion technology has been tested both in a lab and proven in real life, the BioCote protected hardware is effective against microbes that stimulate rust and mould, which could negatively impact the handles performance. Reducing bacteria by up to 80% in 15 minutes, 99.5% in 2 hours, and 99.99% in 24 hours, life cycle testing shows that the antimicrobial technology in the Quartus door handle will offer maximum performance for the lifetime of the product.

Long backplate handle

Short backplate handle

Maintenance	Material Specification	Packaging	Antimicrobial
Yale recommends that the Yale Quartus Combi Door handle is surface cleaned with a damp cloth only and kept free of dirt	304 Stainless steel (External) Zinc Alloy (Internal) Nylon 66	10 per box 80 per carton	Contains BioCote silver phosphate glass antimicrobial technology to preserve the surface and prevent degradation caused by microbial growth

BS EN 1670
British Standards Institute accredited in anti-corrosion performance.
